You don't need me to tell you that the possibility of war in Israel is real and that the political situation throughout the Arab world seems to be on fire. There are, however, some things I feel I need to tell you just to make sure you understand, because they will directly affect you and your family in many ways. In fact they are affecting us now, and then the whole world, in ways none of us want to see.

Before someone draws the conclusion that I am in favor of the likes of the dictators of these Arab countries let me make it clear; they are monsters, and murderers of the worst possible kind. What you are not being told is that the ones trying to unseat them are much worse for you and the rest of the world. I told you this when the Egyptian riots first began. Now you see that the Moslem Brotherhood is gaining firm control of all the arms given to Egypt by the US, Russia, France and North Korea, and they are pointing them directly at Israel. The same Moslem Brotherhood in Libya and Syria are in control of the uprising there as well, but what you are being told is that they are freedom fighters for "democracy". It's true that the people want a vote, but a vote does not a democracy make. It simply means the majority wins, and in all these Arab countries the majority are Islamic extremist terrorists.

You might do well to understand just who is stoking the fires around the Middle East. Would you believe the US? And the question is; why is this US President, who is known to support Islam throughout the world, fanning the fires of unrest?

We see today that the US Bataan with over 2,000 US Marines aboard has moved into the Mediterranean Sea off the Syrian coast. This ship carries 6 fighter-bombers, dozens of attack Helicopters, and 'anti-missile' missiles. The US has also recently moved several warships into the Med, and the Black Sea. . It might be good to also mention at this time that Russia has moved battleships to a Syrian port - and Iran has already been able to deliver weapons by armed escort to that port. Additionally, China and Russia just held a meeting in Moscow to join forces against the US and the western world. Some will ask how I know this? Simply because I read the news and do my own research - and I would suggest you do the same. It is also worth mentioning that I am looking at this whole matter from a very close vantage point. I live here and travel extensively to many places.

It is now being reported here in Israel that Hezbollah has moved many of their missiles into place to fight the US Navy now that they have moved into the Med. I heard today that the Turkish IHH terrorist organization has backed out of this next flotilla to break the Israeli blockade of Gaza. Knowing what we do about this terrorist organization tells us that something is happening between Turkey and the US in regards to a possible attack on the Syrian military.

So let me see if I can make this perfectly clear. With the Moslem Brotherhood now in place in Egypt. With Jordan scared to death of what the next war will bring to them if they don't align themselves with the Islamic Arab world against Israel. With Obama doing all he can to deceive the American public over what his intentions really are [supporting the destruction of Israel]. With Hezbollah now in control in Lebanon [armed with over 50,000 missiles that can reach all of Israel - many tipped with chemical and bio warheads]; YES I'd say things don't look so good.

Once again those who seem to know what is happening are saying that by September it will all come to a head and all hell will break loose. Maybe, maybe not. It could happen even before September. Yet one thing is certain. It is coming our way and gaining speed by the day.

One thing is certain. If the US attacks Syria, the missiles from Syria and Hezbollah in Lebanon will be sent upon Israel, bringing Israel into this battle and that will bring the prophecy regarding Damascus found in Isa. 17:1 to pass. My question is; could this be the real plan by Obama to hasten what he believes will be the destruction of Israel? I think it is a very real possibility.

And could this bring a final judgment upon the US? YES.

As for this ministry, we are now faced with the problem of where to move our boat now based in Turkey. At this moment it is not in any danger, but I know it is now necessary to move this boat to a safer mooring. I was thinking about the Greek Islands and have found that the mooring fees there are insane. They are asking around 10,000 Euros (\$14,500) per year and that must be paid in advance. With the Greek economy sliding into bankruptcy and Spain following close on their heels both places are being torn up with riots and unrest, leaving a big question mark over finding a safe mooring there.

Daily I pray over this situation. It is becoming clearer that we must move that particular boat to Israel. From here we will operate by communication and pick-up at sea or secret places I dare not mention. It is now clear to me why God has placed the matter of communications at such a high level over the past year. You see, sometimes we just have to be obedient, and it is not always necessary to understand all that God is doing or planning. I am now working on that move and will let you know after the fact.

Now let me talk to you about your survival and safety. For years now I've told you to prepare and put away some food and have communications available to be able to stay in touch with what is happening. A vegetable garden is almost a 'must' if it is at all possible for you arrange. In case you haven't been looking, the Middle of the USA is flooding, Texas is under the worst drought in over a 100 years. There are huge wildfires in the south-west, and believe it or not Florida is suffering from a drought and they have declared a state of emergency for fear of wildfires. And when you look around the globe you will notice that many of the worlds foods producing areas are being destroyed by natural disasters. It is safe to say that God isn't happy with the things happening with mankind and He is telling us about it.

As for the US, God has allowed Obama to be elected as your president for reasons known only to Himself. He knows who this man is and what he will do. End time prophecy has been put into motion and the time of great sorrows is at hand. God is using His messengers to warn you to prepare - but still the Church is sleeping and most Pastor's are nothing more than hirelings working for a pay check.

I want you to consider your family and read this one more time and don't be an Infidel ***1-Tim. 5:8. But if any provide not for his own, and specially for those of his own house, he hath denied the faith, and is worse than an infidel.***

Gen. 12:3 is a verse that it seems that all Messianic Ministries use to raise funds but there is another reason as well, read the whole verse And I will bless them that bless thee, and curse him that curseth thee: and in thee shall all families of the earth be blessed

We may not have much time to raise the needed finances for the final phases of this ministry, and I am asking you to pray. Pray for the things God places on your heart. Be obedient in whatever it is God speaks to your spirit, for this is all God is asking of you.

Pray for the peace of Jerusalem, for our son Joel and all the IDF soldiers, pray for this ministry and your part in it.

Shalom, Jerry Golden
