*Note from Pastor Kevin Lea: Long ago, God confused the human language at the tower of Babel because men were using their common language to rebel against God (Genesis 11). Now technology is allowing man to undo the "Babel Effect" just in time for the Antichrist to force the world into global government and a one-world religion under the guise of "unity." Then he will lead the masses into a final rebellion against God as foretold in the Books of Daniel and Revelation. Since it appears the leaders of the world are setting the stage for a global government with a global leader, then we are also growing close to the Second Coming of Jesus Christ:*

It has long been used by James T Kirk to speak to aliens and blue women from space - but now Microsoft is on the brink of making a real, working Universal Translator.

Frank Soong and Rick Rashid have created software which converts English language speech into any of 26 foreign languages - and which 'speaks' in the user's own voice. All the user has to do is speak English into the machine and it will convert it into anything from Spanish to Mandarin.

The new device is similar to the Universal Translator used in Star Trek, and takes around one hour to get used to a person's voice then works by comparing the words that have been recorded with stock models for the target language. The hope is that the device will one day allow visitors to foreign countries to have conversations with other people, even though they do not speak the same language - just like in Star Trek...
