

Video Triggers Calls for Investigation of Abortionist

Lt. Gov. Dewhurst: 'I read with disgust' allegations babies heads 'twisted off neck'

Note from Pastor Kevin Lea: *This is very disturbing, but I think all mature believers in Jesus should read this article and watch the linked video by going to the above website. When you do, you will understand the real reason that our country is unraveling – God's judgment is upon our Nation for (among many other things) the murder of so many babies in abortion clinics across the land.*

Genesis 4:9-11 (NKJV) – Then the Lord said to Cain, "Where is Abel your brother?" He said, "I do not know. Am I my brother's keeper?" And He said, "What have you done? The voice of your brother's blood cries out to Me from the ground. So now you are cursed from the earth, which has opened its mouth to receive your brother's blood from your hand."

Authorities in Texas are calling for a formal investigation of an abortionist after reports surfaced that he was in the practice of killing babies born alive by twisting off their heads or shoving a surgical instrument into their brains.

“In a week when serial murderer Kermit Gosnell was found guilty of killing babies, I read with disgust about the allegations [against] Houston-based abortionist Douglas Karpen,” said Texas Lt. Gov. David Dewhurst [in a statement](#). “The Harris County authorities should perform a full-scale investigation and take action against those who broke state law,” Dewhurst said.

The outrage follows [the release this week](#) by the Texas-based [Life Dynamics](#) of a video with accusations from three women who worked for Karpen. The women explain that the abortionist sometimes would twist the baby's head off his neck, shove a surgical instrument into the vulnerable baby's brain through the skull, or shove a surgical instrument into the chest or abdomen.

The interview featuring Deborah Edge, Krystal Rodriguez and Gigi Aguilar provided proof, Life Dynamics said, “the lofty rhetoric of ‘choice’ may insulate those who work in the political and public relations arena, but the day-to-day reality for those who provide those ‘choices’ is to deal with the corpses and parts of corpses they pull out of their customers’ bodies.”

Mark Crutcher, the founder of Life Dynamics, said, “While the pro-life movement claims that abortion takes the life of a living human being, nobody on earth knows that better than the people who work at abortion clinics.”

Said Edge: “I thought, well, it's an abortion you know, that's what he does, but I wasn't aware that it was illegal. ... Most of the time we would see him where the fetus would come completely out and of course, the fetus would still be alive. “He does a lot of huge abortions. A lot of the times, we would bring the big fetus[es] that were over age, we would re-open the bag and just look at it and be like, ‘Oh my gosh, it's so big!’” ...
