Note from Pastor Kevin Lea: The world is living in unprecedented times of peril. I provide this info as a warning to those who have ears to hear.

*Ezekiel 33:1-6. Again the word of the Lord came to me, saying, “Son of man, speak to the children of your people, and say to them: ‘When I bring the sword upon a land, and the people of the land take a man from their territory and make him their watchman, **when he sees the sword coming upon the land, if he blows the trumpet and warns the people, then whoever hears the sound of the trumpet and does not take warning, if the sword comes and takes him away, his blood shall be on his own head. He heard the sound of the trumpet but did not take warning; his blood shall be upon himself. But he who takes warning will save his life. But if the watchman sees the sword coming and does not blow the trumpet, and the people are not warned, and the sword comes and takes any person from among them, he is taken away in his iniquity; but his blood I will require at the watchman’s hand.**” NKJV*

Vaccine Injury Data. Find current data on vaccine related injuries at: <https://www.openvaers.com/>. This web site extracts data from the VAERS* database and formats it so that it is easier to browse and search for information.

*VAERS is the Vaccine Adverse Event Reporting System put in place in 1990. It is a voluntary reporting system that has been estimated to account for only 1% (see the [Lazarus Report](#)) of vaccine injuries. OpenVAERS is built from the HHS data available for download at vaers.hhs.gov. The OpenVAERS Project allows browsing and searching of the reports without the need to compose an advanced search (more advanced searches can be done at medalerts.org or vaers.hhs.gov).

The obvious question is, why did more people die in 2021 (January

through August) despite the rollout of COVID shots in December 2020? Did COVID-19 raise the death toll despite mass vaccination, or are people dying at increased rates because of the COVID jabs?"

Story-at-a-glance.
 - Scientists are already cooking up more virulent and lethal versions of SARS-CoV-2.
 - By serial passaging live [SARS-CoV-2](#) in plasma obtained from a recovered [COVID-19](#) patient that had high amounts of neutralizing antibodies in it, the virus ended up mutating to evade the antibodies.
 - The SARS-CoV-2 variant they created bypasses acquired immunity or negates the immunity you normally would have after recovering from the infection. As such, it could be extremely lethal.
 - Since the virus can mutate to evade neutralizing antibodies, it could potentially mutate under the "selective pressure" of vaccination as well.

- Two prominent figures during the COVID-19 pandemic have been [Dr. Anthony Fauci](#) and Peter Daszak, both of whom have much to gain by misleading the public and the world about SARS-CoV-2's origin, as they may both have been involved in its creation.

Their immune systems are deteriorating at around 5% per week (between 3.8% and 9.1%).  - COVID-19 is a blood and blood vessel disease. SARS-CoV-2 infects the lining of human blood vessels, causing them to leak into the lungs.
 - Current treatment protocols (e.g. invasive ventilation) are actively harmful to patients, accelerating oxidative stress and causing severe VILI (ventilator-induced lung injuries). The continued use of ventilators in the absence of any proven medical benefit constitutes mass murder.
 - Existing countermeasures are inadequate to slow the spread of what is an aerosolized and potentially wastewater-borne virus and constitute a form of medical theater.
 - Various non-vaccine interventions have been suppressed by both the media and the medical establishment in favor of vaccines and expensive patented drugs.
 - The authorities have denied the usefulness of natural immunity against COVID-19, even though natural immunity confers protection against all of the virus's proteins, and not just one.
 - Vaccines will do more harm than good. The antigen that these vaccines are based on, SARS-CoV-2 Spike, is a toxic protein. SARS-CoV-2 may have ADE, or antibody-dependent enhancement; current antibodies may not neutralize future strains, but instead help them infect immune cells. Also, vaccinating during a pandemic with a leaky vaccine removes the evolutionary pressure for a virus to become less lethal.
 - There is a vast and appalling criminal conspiracy that directly links both Anthony Fauci and Moderna to the Wuhan Institute of Virology.
 - COVID-19 vaccine researchers are directly linked to scientists involved in brain-computer interface ("neural lace") tech, one of whom was indicted for taking grant money from China.
 - Independent researchers have discovered mysterious nanoparticles inside the vaccines that are not supposed to be present.
 - The entire pandemic is being used as an excuse for a vast political and economic transformation of Western society that will enrich the already rich and turn the rest of us into serfs and untouchables.

 - In the early 2000s, David Martin, Ph.D., founder of M-CAM International, started finding large numbers of patents that violate biological and chemical weapons laws.
 - In 1999, [Dr. Anthony Fauci](#) funded research to create “an infectious replication-defective recombinant coronavirus.” In 2002, Ralph Baric, Ph.D. and colleagues at the University of North Carolina, Chapel Hill, filed a patent on recombinant [coronavirus](#), and within a year, we got the world’s first SARS outbreak.
 - Since 1999, at least 4,000 patents involving coronavirus have been filed, including patents detailing key features of the so-called “novel” [SARS-CoV-2 virus](#).
 - The 2001 anthrax attack, which came out of medical and defense research, led to the passage of the PREP Act, which removed liability for manufacturers of emergency medical countermeasures.
 - The funds for entitlement programs and pensions will dry up by 2028, at which point the [drug industry](#) will go bankrupt as well. With a burgeoning population that is sick from the COVID jabs, we need to prepare new systems to care for each other.

It’s about ‘some type of totalitarian takeover that’s occurred all over the world. Something very dark is going on.’ Eminent COVID-19 expert and highly published physician Dr. Peter McCullough provided a comprehensive well-documented presentation to colleagues regarding the “unbelievable atrocity” occurring in the West due to gene-transfer vaccine campaigns, the necessity for an “unbreakable resistance” against children receiving the jab, and the “astounding ... ineptitude and willful misconduct” of public health agencies. McCullough, who has made the case that no one in the world has more authority on this topic than him, provided detailed analysis of multiple scientific studies and data reports demonstrating the “failure of the vaccine program,” the suppression of effective early treatments, and the “robust, complete and durable” qualities of natural immunity.” (Editor’s Note: Check out the McCullough Report at <https://www.americaoutloud.com/the-mccullough-report/>.)

The authors point out that no one appeared to be concerned about the unintended consequences of “switching off” that early warning system. Based on observations so far from the human trials in-progress* (the millions of these shots that have been injected into a significant portion of the world’s population), the author raises three concerns:
 1. The ability of the immune system to fight viruses has been diminished; specifically, the ability to fight SARS-CoV-2 may be affected;
 2. Vaccine-induced innate immune tolerance may affect other vaccines; and finally
 3. What other parts of the immune system may be affected.* Pre-publication article: “The BNT162b2 mRNA vaccine against SARS-CoV-2 reprograms both adaptive and innate immune responses,” online at: <https://www.medrxiv.org/content/10.1101/2021.05.03.21256520v1>

- **CDC continues dishonest vaccine, COVID data reporting to hide danger of COVID jabs.** <https://www.lifesitenews.com/opinion/cdc-continues-dishonest-vaccine-covid-data-reporting-to-hide-danger-of-covid-jabs/>
 - According to the U.S. Centers for Disease Control and Prevention, you’re not counted as fully vaccinated until a full 14 days have passed since your second injection in the case of Pfizer or Moderna, or 14 days after your first dose of Janssen, despite the fact that over 80% of deaths after the vaccines occur in this window. How convenient.
 - Anyone who dies within the first 14 days post-injection is counted as an unvaccinated death. Not only does this inaccurately inflate the unvaccinated death toll, but it also hides the real dangers of the COVID shots, as the vast majority of deaths from these shots occur within the first two weeks
 - The CDC also has two different sets of testing guidelines — one for vaccinated patients and another for the unvaccinated. If you’re unvaccinated, CDC guidance says to use a cycle threshold (CT) of 40, known to result in false positives. If you’re vaccinated, they recommend using a CT of 28 or less, which minimizes the risk of false positives.
 - The CDC also hides vaccine failures and props up the “pandemic of the unvaccinated” narrative by only counting breakthrough cases that result in hospitalization or death.
 - Hospitals are still also reporting non-COVID related illnesses as COVID-19.

This is a “Must View Video” from a truly independent very qualified world authority, Dr Michael Yeadon, who relates the facts without fear of Deep State intervening exposing experimental vaccines being pumped into duped masses that will kill. Dr. Yeadon has tracked the responses of the government and medical agencies since the start of the “pandemic” and quickly realized that everything they were doing and saying was unscientific for example, lockdowns, asymptomatic transmission, use of the PCR test for COVID diagnosis without consideration of the impact of false positives, etc. His attempts to speak truth were met with censorship and attacks. He concludes that everything going on around COVID is about control, not health. His conclusion: Do not believe your government or health authorities, they are lying to you. We must resist if we get to the point of vaccine passports, it will be too late.

The official line on vaccines is that they are extremely effective at protecting against serious illness. - **The flawed argument for vaccine mandates.** <https://www.npri.org/commentary/the-flawed-argument-for-vaccine-mandates/>. The argument for mandatory vaccination rests on two fundamentally contradictory claims. The first claim is undeniably correct: the vaccines work. In fact, they are so effective at preventing serious illness or death that, for the vaccinated, COVID has essentially been transformed into the common cold. Yet, while this is correctly cited as the argument for why most *should* get vaccinated, advocates then implicitly suggest the opposite when alleging that the unvaccinated pose a threat to the vaccinated and, therefore, must be forced to take the vaccine. That claim is dangerous and divisive propaganda that has no basis in fact.

We know that the human brain is very sensitive to oxygen deprivation. There are nerve cells for example in the hippocampus that can’t be longer than 3 minutes without oxygen - they cannot survive. The acute warning symptoms are headaches, drowsiness, dizziness, issues in concentration, slowing down of reaction time - reactions of the cognitive system. However, when you have chronic oxygen deprivation, all of those symptoms disappear, because you get used to it. But your efficiency will remain impaired and the under-supply of oxygen in your brain continues to progress.” [Shttps://www.sott.net/article/442455-German-Neurologist-Warns-Against-Wearing-Facemasks-Oxygen-Deprivation-Causes-Permanent-Neurological-Damage](https://www.sott.net/article/442455-German-Neurologist-Warns-Against-Wearing-Facemasks-Oxygen-Deprivation-Causes-Permanent-Neurological-Damage)

- **Vaccine Passports: Why Bother if Shots Don’t Prevent Infection, Transmission?** Since COVID shots don’t prevent infection or spread of the virus, and the vaccinated carry the same viral load when symptomatic as unvaccinated individuals, the argument that vaccine passports will separate “public health threats” from those who are “safe” to be around falls apart. https://childrenshealthdefense.org/defender/vaccine-passports-covid-shots-dont-prevent-infection-transmission/?utm_source=salsa&eType=EmailBlastContent&eId=2c31d943-8dbc-4171-9343-b7acff9a8e9d

- **Oregon Senators File Grand Jury Petition Alleging CDC, FDA Violated Federal Law by Inflating COVID Death Data.** Two Oregon state senators, representing American citizens with professional expertise in medicine, law, statistics and death certificate reporting, jointly filed a formal petition for a federal grand jury investigation into the CDC's and FDA's reporting on COVID deaths. https://childrenshealthdefense.org/defender/oregon-senators-grand-jury-petition-cdc-fda-inflating-covid-death-data/?utm_source=salsa&eType=EmailBlastContent&eId=2c31d943-8dbc-4171-9343-b7acff9a8e9d. (Note: Artificially inflating the COVID death count in 2020 was a strategy intended to generate fear in the population, fear that would impel the masses to line up for the "vaccine" to stay alive. In fact, there were NO excess deaths in 2020, in any country. The total number of deaths was statistically the same as in prior years.)

Released Monday, August 23, 2021, as a preprint of the August 25, 2021, issue of Trends in Internal Medicine. This review of clinical trial data from COVID-19 vaccines concludes there is no scientific data that the vaccines can improve the health of the population. Not only that, but the report also says the data appear to point in the opposite direction — inferring there is more harm than good in getting them. It suggests that "the actual health decline caused by the vaccines is probably much worse" than what most available data tables suggest. And, finally, the study says, "if the COVID-19 outbreak is the result of a bioweapons attack and vaccine resistant variants represent the release of different prototypes then immunization is almost certain to fail." <https://newsrescue.com/us-covid-19-vaccines-proven-to-cause-more-harm-than-good-based-on-pivotal-clinical-trial-data-analyzed-using-the-proper-scientific-endpoint-all-cause-severe-morbidity/> (corrected link 18 Sept)

This March 2020 international patent issued to Microsoft is for application of block chain technology (used for cryptocurrency) to humans. “Human body activity associated with a task provided to a user may be used in a mining process of a cryptocurrency system. A server may provide a task to a device of a user which is communicatively coupled to the server. A sensor communicatively coupled to or comprised in the device of the user may sense body activity of the user. Body activity data may be generated based on the sensed body activity of the user. The cryptocurrency system communicatively coupled to the device of the user may verify if the body activity data satisfies one or more conditions set by the cryptocurrency system, and award cryptocurrency to the user whose body activity data is verified.” Is this why we are finding graphene oxide and other metals in the “vaccines?” And why we need boosters (to renew levels of the graphene oxide in the body)?

Key Points Regarding Remdesivir

- CDC permits hospitals to use *only* Remdesivir for CoVid Treatment. The use of any other therapeutics is *forbidden*. (Note: Otherwise hospitals lose their funding; doctors lose their license).
- It is an expensive, patented drug (\$2600 per shot). Making people a lot of money.
- Remdesivir has *never* proven to be safe or efficacious for *any* disease
- NIH web site (Fauci) cites two research studies “ that prove Remdesivir was efficacious and warranted during this coronavirus outbreak.” Clicking on the links gets you to:
 1. First study - 12-month ebola trial on four experimental drugs in 2018. Included Remdesivir and a second drug that Fauci was pushing (and two others). Both of Fauci’s drugs were pulled from the study after six months because they were killing people (54%!). Study: *A Randomized, Controlled Trial of Ebola Virus Disease Therapeutics*, The New England Journal of Medicine, online at: <https://www.nejm.org/doi/full/10.1056/NEJMoa1910993>
 2. Second study, a cohort study sponsored by Gilead, the manufacturer(!) of Remdesivir- 53 Covid patients from US, Japan, and Canada. *Gave Remdesivir for 28 days. Results: 22% experienced multiple organ failure, kidney failure, septic shock, and hypotension. 8% had to be taken off the drug at day 5 or 10 because they were dying of the effects.* Study: *Compassionate Use of Remdesivir for Patients with Severe Covid-19*, The New England Journal of Medicine, online at: <https://www.nejm.org/doi/full/10.1056/NEJMoa2007016>

Compilation of Covid Injection News

- *Conclusion:* NIH and others knew/know Remdesivir is deadly. They used it along with faulty PCR testing to kill more people “from CoVid” to create more fear as part of paving the way for the “vaccine.”

Key Points regarding side effects associated with the shot

- FDA had internal meeting in October 2020 (two months before shot roll-out). The Center for Biologics, Experiments, and Research (CBER) gave a 26-slide presentation on the shot.
- Slide 16 informed them of the serious side effects that they knew would start being reported to VAERS. FDA was aware that there is more than 110 diseases associated with the shot, including death and miscarriages. Also listed was a new diagnosis: multi-system inflammatory syndrome in children (MIS-C). Children are those under age 12. Already more than 4000 cases reported and 40 deaths.
- CBER presentation: *CBER Plans for Monitoring COVID-19 Vaccine Safety and Effectiveness*, online at: <https://stacks.cdc.gov/view/cdc/97349>
- *Conclusion:* FDA knew about all the side effects from the shot well in advance of its rollout.
