Vaccine verification options now include QR code functionality through [WA Verify](#), the state’s new Digital COVID-19 Vaccine Record system. Currently, there are [several forms of proof](#) people can use to verify their vaccination status... Realizing the overarching need for QR code functionality as a necessity for quick and easy vaccine verification, DOH’s Office of Innovation and Technology, working closely with partners at MITRE, Microsoft, and the state of California, stood up [WA Verify](#). WA Verify is Washington’s new Digital COVID-19 Verification Record system that draws COVID-19 records from the state’s immunization system. To use the tool, people enter their name, date of birth, and an email or phone number associated with their vaccination record. If the information matches an official record, they will receive a text or email with a link to their Digital COVID-19 Vaccine Record. WA Verify currently supports more than 30 languages, with additional languages available soon.

- **CDC just warned that 15,000 Americans will die EACH WEEK by Christmas; but it’s actually VACCINE DEATHS that are accelerating just as independent doctors told us all along.** <https://www.naturalnews.com/2021-12-17-cdc-warned-15000-americans-will-die-each-week-vaccine-death-wave.html> “In a stunning development that confirms the mass vaccine die-off is accelerating, the CDC now openly admits that **15,600 Americans will die each week by Christmas**, with deaths continuing through the first part of 2022. (Source: [UK Daily Mail citing the CDC](#)). The CDC claims these are “covid” deaths, but of course they are actually *vaccine* deaths. Covid vaccines inject people with toxic spike proteins or the mRNA instructions to manufacture [spike protein nanoparticles](#). These particles are the disease, and they cause widespread vascular, neurological and reproductive damage. The side effects of these vaccines are identical to the “symptoms” of covid for the simple reason that **the vaccines are the pandemic**. Thus, when people are injected with the vaccines, they are “given” covid. Once they die, they are said to have died from covid instead of from the vaccine.”

- **CDC, FDA Say No Deaths From COVID Vaccines. VAERS Data Tell Different Story.** <https://childrenshealthdefense.org/defender/jessica-rose-cdc-fda-covid-vaccines-deaths-vaers/> “Story at-a-glance:
  - The U.S. Vaccine Adverse Event Reporting System (VAERS) is among the best adverse event data collection systems in the world, but it’s antiquated and difficult to use. Still, it’s a good way to detect safety signals that weren’t detected during premarket testing or clinical trials.
  - There are unmistakable, unprecedented safety signals in VAERS for the COVID shots. While the U.S. Food and Drug Administration and Centers for Disease Control and Prevention claim no deaths can be attributed to the COVID jabs, it’s impossible to discount 8,986 deaths in the U.S. territories alone, reported as of Nov. 26.
  - The estimated underreporting factor for COVID jab injuries in VAERS is between 31 and 100, so the actual death toll in the U.S. could be anywhere from 278,500 to 898,600.
  - There’s a strong safety signal for female reproductive issues and for heart inflammation (myocarditis) in young men and boys. VAERS data show an inverse relationship between myocarditis and age, with youths being more frequently affected than older men.
  - VAERS data are being deleted without explanation. Each week, about 100 or so reports are routinely deleted, so there are now thousands of inexplicably missing reports.”

It says that as of November 14, out of every one million males who had the Moderna vaccine, such side effects were reported in 81.79 males aged 10 to 19 and 48.76 males in their 20s."
- **Bhakdi/Burkhardt pathology results show 93% of people who died after being vaccinated were killed by the vaccine.** <https://stevekirsch.substack.com/p/bhakdiburkhardt-pathology-results> "Summary: The vaccines are bad news. Fifteen bodies were examined (all died from 7 days to 6 months after vaccination). The coroner or the public prosecutor didn't associate the vaccine as the cause of death in any of the cases. However, further examination revealed that the vaccine was implicated in the deaths of 14 of the 15 cases. The most attacked organ was the heart (in all of the people who died), but other organs were attacked as well. The implications are potentially enormous resulting in millions of deaths. The vaccines should be immediately halted." Having founded the Truth for Health Foundation, with Peter McCullough, MD MPH as Chief Medical Advisor, she has now found herself confronted with the tragic and horrific reality of COVID patients dying due to neglect and bad treatment in hospitals throughout the U.S. and elsewhere. Many of these treatment centers seem so intent on murdering their patients that they refuse court orders to treat with routine antiviral therapies like steroids as well specific

treatments like hydroxychloroquine and ivermectin. Incentivized by high reimbursement payments for treating dying COVID patients and by using potentially deadly treatments like ventilators and remdesivir, the doctors and hospitals have descended into unethical, corrupt medical practices. These chilling stories highlight the culture of death into which American society is descending. They led our interview to examine the global predators and progressive ideologues who are driving otherwise sane physicians and honorable institutions to kill their patients through a combination of neglect, mistreatment and, at times, deadly interventions. This is an interview that should become a shot heard around the world to alert humanity to the ongoing destruction of Western civilization in the name of treating COVID-19.”

- **85% of COVID Deaths Could Have Been Prevented ... So What Happened?** <https://childrenshealthdefense.org/defender/covid-deaths-could-have-been-prevented/> By Dr. Joseph Mercola. “Of the people who died from COVID in the U.S., none received adequate and/or early enough treatment, Dr. Peter McCullough told podcast host Joe Rogan. If they had, at least 85% of them would have survived. Story at-a-glance:
  - Of the COVID-19 deaths in the U.S., none received adequate and/or early-enough treatment. At least 85% of COVID deaths were preventable.
  - There are three components to SARS-CoV-2 infection: viral replication, cytokine storm and blood clotting, therefore necessitating a multidrug approach, and treatment must begin early to be effective.
  - Research published in 2006 showed hydroxychloroquine reduced viral replication of SARS-CoV-1 (the original SARS virus). It also has well-established anti-inflammatory properties. These two properties help explain its usefulness against COVID-19.
  - There were clear intentional efforts to prevent use of hydroxychloroquine against COVID-19, likely in an effort to make the COVID jabs appear necessary.
  - You cannot get COVID-19 twice — those with natural immunity have robust, long-lasting immunity. The Pfizer COVID shot, meanwhile, has been shown to have undetectable effectiveness 201 days after the second dose and Moderna’s effectiveness reaches zero around day 121.”

“If you could only listen to one podcast to get up to speed on COVID-19, you are in luck as one of the top clinicians in the world on understanding COVID-19, Dr. Peter McCullough, finally made his way to the largest podcast in the world, Joe Rogan and, as expected, it was epic. You will do yourself a serious disservice if you don't watch the entire, nearly three-hour, interview at normal speed. Story-at-a-Glance:

- Of the COVID-19 deaths in the U.S., none received adequate and/or early-enough treatment. At least 85% of COVID deaths were preventable
  - There are three components to SARS-CoV-2 infection: viral replication, cytokine storm and blood clotting, therefore necessitating a multidrug approach, and treatment must begin early to be effective
  - Research published in 2006 showed hydroxychloroquine reduced viral replication of SARS-CoV-1 (the original SARS virus). It also has well-established anti-inflammatory properties. These two properties help explain its usefulness against COVID-19
  - There were clear intentional efforts to prevent use of hydroxychloroquine against COVID-19, likely in an effort to make the COVID jabs appear necessary
  - You cannot get COVID-19 twice; those with natural immunity have robust, long-lasting immunity. The Pfizer COVID shot, meanwhile, has been shown to have undetectable effectiveness 201 days after the second dose and Moderna's effectiveness reaches zero around day 121.”

- Worse Than the Disease? Reviewing Some Possible Unintended Consequences of the mRNA Vaccines Against COVID-19.** <https://ijvtpr.com/index.php/IJVTpr/article/view/23>. “Abstract: Operation Warp Speed brought to market in the United States two mRNA vaccines, produced by Pfizer and Moderna. Interim data suggested high efficacy for both of these vaccines, which helped legitimize Emergency Use Authorization (EUA) by the FDA. However, the exceptionally rapid movement of these vaccines through controlled trials and into mass deployment raises multiple safety concerns. In this review we first describe the technology underlying these vaccines in detail. We then review both components of and the intended biological response to these vaccines, including production of the spike protein itself, and their potential relationship to a wide range of both acute and long-term induced pathologies, such as blood disorders, neurodegenerative diseases and autoimmune diseases. Among these potential induced pathologies, we discuss the relevance of prion-protein-related amino acid sequences within the spike protein. We also present a brief review of studies supporting the potential for spike protein “shedding”, transmission of the protein from a vaccinated to an unvaccinated person, resulting in symptoms induced in the latter. We finish by addressing a common point of debate, namely, whether or not these vaccines could modify the DNA of those receiving the vaccination. While there are no studies demonstrating definitively that this is happening, we provide a plausible scenario, supported by previously established pathways for transformation and transport of genetic material, whereby injected mRNA could ultimately be incorporated into germ cell DNA for transgenerational transmission. We conclude with our recommendations regarding surveillance that will help to clarify the long-term effects of these experimental drugs and allow us to better assess the true risk/benefit ratio of these novel technologies.”

This paper is so important and it provides evidence to support what many prominent immunologists and vaccinologists have been saying for a long time, including myself. These COVID-19 mRNA injectable products are causing, yes, *causing*, immune system dysregulation - and not just in the context of the adaptive system, but in the context of the **innate system**. Not only that, but these findings provide very good reasons as to why we are seeing resurgences of latent viral infections and other adverse events reported in VAERS (and other adverse event reporting systems) and perhaps more importantly, why we should *under no circumstances* inject this crap into our children.   - The U.S. Centers for Disease Control and Prevention provides more than 15 observational studies as their basis for recommending face masks
  - The CDC focused, in particular, on one of the studies — an observational cohort study of two hairstylists at a Missouri beauty salon who tested positive for COVID-19
  - The two stylists developed respiratory symptoms, but continued to see 139 clients; both of the stylists wore masks during this time, as did most of the clients
  - Sixty-seven of the clients ended up getting tested for COVID-19, none of whom tested positive; the other 72 clients did not report any symptoms
  - Since there was no control group, no one knows if the results would have been different if the stylists or clients weren’t wearing masks
  - Any number of the 72 untested customers could have had COVID-19 but been asymptomatic; the apparent lack of spread of COVID-19 could also have been due to ventilation, hand hygiene or the fact that stylists typically cut hair while clients are facing away from them”

The body of evidence indicates that face masks are largely ineffective. All this to say and as so comprehensively documented by Dr. Roger W. Koops in a recent American Institute of Economic Research (AIER) publication, there is [no clear scientific evidence](#) that masks (surgical or cloth) work to mitigate risk to the wearer or to those coming into contact with the wearer, as they are currently worn in everyday life and specifically as we refer to Covid-19. We had democracies that looked after ‘us’, governments chosen and held accountable by us, and we never needed the WHO. But it was comforting to know the WHO was there, for others. The past two years should have changed that perception. The **WHO** is a primary architect of the unprecedented abrogation of basic societal rights and freedoms that we assumed were inviolable: to meet, greet, learn, work, and travel. “Despite the fact that vaccine resistance has been typically considered a rare phenomenon, some episodes of vaccine failure have been reported with increasing frequency in intensively-raised livestock. ... Unfortunately, the continuous emergence of new vaccine-immunity escaping variants prompts the development of new vaccines... In short, it is the bones upon which a vaccine mandate could rest. An infrastructure ties together physical or digital components to create a framework and support system for an end goal. A common example would be a highway system—individual roads across states would be strengthened or built to combine into a seamless system for travel through the entire country. An infrastructure creates relationships between separate systems, like the Constitution did for our Colonies. When stakeholders like politicians and corporate philanthropists or contractors discuss the “immunization infrastructure,” as this bill is titled, they are talking about strengthening the systems already in place to get people vaccinated.”

Spain’s health ministry gave the go-ahead Tuesday for children between ages 5 and 11 to be vaccinated against COVID-19 amid a rise in [coronavirus](#) infections in recent weeks. The Spanish health ministry tweeted news of the approval, following the decision of an expert committee. The rollout is due to begin Dec. 15, two days after the first of 3.2 million child vaccines arrive in Spain. Austria has been inoculating children since the European Union’s drug regulator on Nov. 25 authorized Pfizer’s coronavirus vaccine for use on that age group. Greece will also begin on Dec. 15 and Italy will start on Dec. 16, among others. The European Medicines Agency’s decision opened the way for jabs to be administered to millions of elementary school pupils across the continent. Portugal, Spain’s neighbor on the Iberian Peninsula, is expected to follow suit, with pediatric jabs due to arrive there in two weeks’ time.   - First 11 minutes. How Tony Fauci in May 2020 mandated the use of Remdesivir, an experimental drug that he knew was deadly, as the sole protocol for treating COVID 19 patients in the hospital. In this

mandate, he cites two trials, which Dr. Ardis researched, to find out that both of these trials showed Remdesivir to be ineffective and deadly. In fact, the data show Remdesivir causes acute kidney failure in 30% of those treated, leading to pulmonary edema and death. Remdesivir has a higher mortality rate than COVID. This served to drive up the numbers of COVID deaths and help create the fear and panic that would lead to widespread acceptance of the experimental COVID shots.

- Starting about 11 min mark. **How Fauci convinced authorities to buy up all stock of Remdesivir for use in US. Result? America, with 4.5% of world's population, has had 25% of all deaths attributed to COVID.**
- 13:30 min. **Hospitals are STILL lying to use about Remdesivir and refusing to prescribe anything else, even vitamins because they say there is no other drug approved for treating COVID. However, NIH approved the use of Ivermectin for treating COVID in July 2021.**
- 17:45 to 27:20 min – Dr. Ardis discusses treatments for COVID 19 and other recommended supplements. If you contract COVID. Do not go to the hospital! Less than 1% of population outside of the US has died from COVID! US mortality rate is so high due to use of Remdesivir in the hospitals.

  - Research shows increases in COVID-19 cases are completely unrelated to levels of vaccination in 68 countries worldwide and 2,947 counties in the U.S.
  - The data from U.S. counties showed similar trends, with new COVID-19 cases per 100,000 people being 'largely similar' regardless of the vaccination rate
  - Of the five U.S. counties with the highest vaccination rates — ranging from 84.3% to 99.9% fully vaccinated — four are on the U.S. Centers for Disease Control and Prevention's 'high transmission' list, while 26.3% of the 57 counties with 'low transmission' had vaccination rates under 20%
  - Iceland and Portugal, both of which have more than 75% of their populations fully vaccinated, have more COVID-19 cases per 1 million people than Vietnam and South Africa, where only 10% or so of their populations are fully vaccinated

- CDC data show rates of hospitalization for severe illness among the fully vaccinated went from 0.01% in January 2021 to 9% in May 2021, and deaths went from 0% to 15.1%. If the shots actually worked, these rates should have remained near zero.

  - About two weeks after the shot, Warner experienced extremely elevated heart rates; an ER doctor refused to believe it was an adverse reaction to the jab and instead blamed it on a ‘psychotic episode’

- After visiting another hospital due to more heart trouble, Warner was referred to a cardiologist who diagnosed him with pericarditis, an inflammation of the outer lining of the heart
- For four months now, Warner has been so ill that he hasn't been able to work or ride a bike; even mental exertion can cause him to relapse physically
- At the *Real, Not Rare* rally held in Washington, D.C., Warner spoke before politicians to make a difference in the support level for vaccine-injured people — which is nonexistent in the U.S. — and voice opposition to vaccine mandates; 'I believe where there is risk, there needs to be choice,' he said

Ponder this: Have large numbers of excess deaths over pre-pandemic years resulted from something other than COVID infections? There have been increasing articles and studies about excess deaths during the pandemic. Too many of these seem aimed at getting attention rather than being accurate and balanced. The concept of excess deaths is simple: deaths above what was normally observed before the pandemic. But why are more people dying even after accounting for COVID infection deaths? Getting to the correct answer is the goal of this article.’

- **CDC Emails: Our Definition of Vaccine is ‘Problematic.’** <https://technofog.substack.com/p/cdc-emails-our-definition-of-vaccine> The CDC caused an uproar in early September 2021, after it changed its definitions of ‘vaccination’ and ‘vaccine.’ For years, the CDC had set definitions for vaccination/vaccine that discussed immunity. This all changed on September 1, 2021.
- **Dictionary Changes Definition of Vaccine** [11 min. video]. <https://www.youtube.com/watch?v=jrEthk02bPw> (commentary at: <https://thetruthaboutvaccines.com/dictionary-changes-definition-vaccine-video/>); ‘As the world has continued to spiral into an Orwellian nightmare, it seems that we’ve missed some pretty major changes. According to archive searches, the Merriam-Webster dictionary changed the definition of a vaccine sometime back in January. On January 18th, the definition was the same as it has been for decades... But by January 26th, that definition was soon changed in a way that seems conveniently tailored to lend credibility to the new COVID jabs. Completely changing the definition of the word to eliminate references to immunity and add ‘genetic material’ seems like a drastic and sneaky way to change the narrative leading up to unprecedented (and unlawful) vaccine mandates.’
