

# Swedish Study Shows the Vaccine DNA Passes on to Children

By: M Dowling, September 1, 2022, <https://www.independentsentinel.com/swedish-study-shows-the-vaccine-dna-passes-on-to-children/>

**CCPO Note:** Our medical and governmental agencies assured us that the experimental, synthetic mRNA COVID-19 “vaccine,” designed to produce the toxic spike protein in our bodies, could *never* change our DNA. Fauci and the other “experts” mocked those who warned of this possibility, calling them “conspiracy theorists.” However, this study shows that not only can the synthetic mRNA become permanently integrated into our genome, but this induced mutation will pass from the mother to baby. These children’s bodies will now automatically manufacture this toxin for the rest of their lives. And should they live long enough to reproduce themselves, will pass the deadly mutation on to their children. Once again, conspiracy theory becomes conspiracy fact.

God said His creation was “*very good*” (Genesis 1:31). Once again see the futility and foolishness of man when he refuses to acknowledge His Creator: “...*because what may be known of God is manifest in them, for God has shown it to them, ... even His eternal power and Godhead, so that they are without excuse, because, although they knew God, they did not glorify Him as God, nor were thankful, but became futile in their thoughts, and their foolish hearts were darkened. Professing to be wise, they became fools*” (Romans 1:19-21 NKJV). In these last days, we exhort you to place your hope not in our dying world and its corrupt systems, but in our Living Hope, Jesus Christ! “*Blessed be the God and Father of our Lord Jesus Christ, who according to His abundant mercy has begotten us again to a living hope through the resurrection of Jesus Christ from the dead, to an inheritance incorruptible and undefiled and that does not fade away, reserved in heaven for you, who are kept by the power of God through faith for salvation ready to be revealed in the last time*” (1 Peter 1:3-5 NKJV).

A [new study](#) out of Sweden examined the evidence of vaccine mRNA entering the human liver cell in vitro. They found evidence that it does. The mRNA is transcribed into DNA and integrates with the human genome. There is now evidence that the babies born after the mother is injected have inherited the spike protein genes. How many times were we told they would NOT alter the genes? Pfizer’s vaccine can likely pass down to the babies born after. So, we were lied to. Shocker.

We put the key points of the study below. If you will remember, there are adverse effects from the vaccine including heart problems such as myocarditis and ...
