

# The Right Response to Mandates, Propaganda, and Censorship

[Dr. Joseph Mercola](https://takecontrol.substack.com/p/right-response-to-mandates-propaganda-censorship), September 24, 2022, [takecontrol.substack.com/p/right-response-to-mandates-propaganda-censorship](https://takecontrol.substack.com/p/right-response-to-mandates-propaganda-censorship)

**CCPO Note:** In this interview, Dr. Nass discusses evidence of the widespread COVID-19 fraud and deception that our governments have perpetrated on the people of America and around the world since late 2019. “Conspiracy theorists,” those who look beyond the narrative of corrupt governments and their partners-in-propaganda, the mainstream media, have discerned the deception in the “pandemic” lies over the last two years. The harm caused by the COVID-19 “vaccine” is now increasing and obvious to those who have eyes to see. The degree of deception and harm to humans is unprecedented in human history yet many people remain in denial, willing “Normal” to return. Is this denial a part of the end times delusion of which Paul writes (And for this reason God will send them strong delusion, that they should believe the lie. 2 Thessalonians 2:11)?

Just as significant is Dr. Mercola’s announcement (below) that after years of government / industry persecution and censorship for his stand for truth, his website has been taken down. Since the 2020 election, we have witnessed censorship to a degree never before seen in this country, on par with many other repressive regimes. The loss of Free Speech (First Amendment in the U.S.) is a pivotal strategy for the totalitarian takeover of any free society. The take down of Mercola.com represents a new level in our government’s war on the First Amendment. Should events continue to escalate towards formation of the Daniel 9 and Revelation 13 end times global totalitarian state, many other websites will follow into oblivion. Normal is not coming back. In this interview, Dr. Meryl Nass shares astonishing figures on the blatant PCR testing and case count frauds that occurred during the pandemic. **IMPORTANT ANNOUNCEMENT.** Many of you are aware the Mercola website disappeared early Friday morning. This outage wasn’t scheduled, but we have been planning and preparing for the possibility that it could happen for some time. The past few years have brought many challenges:

- Our bank accounts were closed
- Our partners’ Paypal accounts were shut down
- The media, senators, federal agencies, Attorney’s General, and Big Tech have all been used by the global cabal to illegally shut down our right to free speech

But we stand together and can see through the coordinated agenda before us. A constant game of chess is being played out and our lives are at stake. We’ve broken through the blinding fog of the COVID war together. We have won many battles and are stronger and more enlightened by each one.

Our sites will be shut down temporarily and we will operate through Substack and Amazon until further notice. The Substack website will host our content for the first 48 hours free of charge. It is imperative that you subscribe to my Substance website (for free) to receive our daily information. Please also bookmark the website should you not receive our emails. You can find my Substack website at: [TakeControl.Substack.Com](https://TakeControl.Substack.Com)

If you are looking for our products, you will need to purchase them from our Amazon reseller website temporarily. I realize this is an unfortunate choice, as the last thing we want you to do is purchase from Amazon – but at this time [Amazon](https://Amazon) is the only place you will find most of our products. We will do everything in our power to bring back the Mercola Market as soon as possible.

More updates will be coming, so please be sure to subscribe to my [Substack](https://Substack) website (free articles for the first 48 hours they are published) or bookmark the page and visit daily. And remember if you are looking for any of our products, the best place to find them is on Amazon, unfortunately. Thank you so much for your support, we have bigger and better solutions in the works! My deepest gratitude, Dr. Mercola

## STORY AT-A-GLANCE

- Dr. Meryl Nass shares astonishing figures on the blatant PCR testing and case count frauds that occurred during the pandemic
- The FDA has given emergency use authorization to 281 tests for COVID-19 but not one has received approval; this means their manufacturers have zero liability if the tests don't work
- The number of people who actually had and/or died from COVID in the beginning of the pandemic is unknown, because everybody who died "with COVID" was labeled a "COVID-caused" death
- Hospitals were financially incentivized to increase the number of COVID cases because they got paid more if their patients had a COVID-19 diagnosis
- Nass has created a pledge to provide a way to speak out against the injustice of vaccine mandates, propaganda and censorship that's run rampant since March 2020

The manipulation of data and testing during the COVID-19 pandemic was done intentionally to create fear in the population, driving them to accept the experimental COVID-19 jabs that we're now learning are both dangerous and ineffective at stopping transmission.

In the above episode of the Children's Health Defense "Against the Wind" program,<sup>1</sup> Dr. Meryl Nass, a board-certified internal medicine physician with special expertise in vaccine safety and vaccine mandates, shares some astonishing figures on the blatant testing fraud that occurred — including the fact that 281 tests for COVID-19 have received emergency use authorization (EUA) by the U.S. Food and Drug Administration, but not one has received approval. This means their manufacturers have zero liability if the tests don't work.

## COVID's Laboratory Roots

Nass summarizes some prominent examples of malfeasance by Big Pharma and abuse of power of governments throughout the years, from the Vioxx scandal that killed more than 60,000 people to the opioid epidemic. But all may pale in comparison to the COVID-19 pandemic. To understand the roots of how the SARS-CoV-2 shots came to be, it's important to understand, Nass says, that ...
