CCPO Note: This meticulously researched / cited article by Dr. Mercola is another indicator that we are fast approaching the time when the Antichrist “*causes all, the small and the great, and the rich and the poor, and the free men and the slaves, to be given a mark on their right hand or on their forehead, and he provides that no one will be able to buy or to sell, except the one who has the mark, either the name of the beast or the number of his name*” (Revelation 13:16, 17).

STORY AT-A-GLANCE

- The ID2020 Alliance is a public-private partnership founded by Bill Gates’ GAVI: The Vaccine Alliance, The Rockefeller Foundation, Microsoft, Accenture and Ideo.org
- General partners in the alliance include, among others, Facebook, Mastercard, the United Nations International Computing Centre and Okta, an identity platform
- The ID2020 Alliance is painting itself as the global identification superpower, intent on creating a digital ID that will track you throughout your life, via the help of multibillion-dollar corporations
- In the end, the global superpowers won’t go so far as to create a worldwide digital ID that can simply be left behind when you feel like it; they’ll want something more permanent, something that can’t be left at home, like an implantable microchip
- Whatever the “final” digital ID ends up being called, it will include your digital identity, vaccination status and other health data, along with programmable central bank digital currencies (CBDCs), for starters

Since the beginning of the pandemic, efforts have been underway to advance digital identification systems, including mobile driver’s licenses and vaccine passports. In 2020, the World Economic Forum (WEF) rolled out plans for its COVIDPass, which required users to have their blood screened at an approved COVIDPass laboratory.¹

They would then be issued a QR “health code” via their cellphone, to be presented at airports, borders and entrances to various events. Of course, only those with a “passing” result would be allowed entry, shedding light on the technology’s nefarious potential.

If you refuse to have your blood tested, or the blood test shows you’re infected, you’ll be unable to go about your daily life as you did prior to 2020. Freedoms have been blatantly lost and restricted, with many signing up for this prison-like existence voluntarily in the name of health protection.

According to WEF, COVIDPass doesn’t include tracing technology,² but it easily could at some point. Then, your whereabouts could be tracked and your movement restricted based on what your phone’s QR code reveals about your health, your finances — or anything, really. This is only the beginning...
