In what is being described by some news outlets as the ‘[decades biggest media scandal](#),’ government agencies colluded with Twitter to censor information even if it was factual. The corporate dinosaur media has been silent on what should be the story of the year in 2023. This may lead many to ask if the silent corporate mainstream media outlets are under that same type of pay for censorship rigging that Twitter was involved in.

If the ratings are huge, why wouldn’t they report on it? As of 2 weeks ago NBC, CBS, ABC, CNN, and MSNBC have allocated only 14 minutes of combined coverage of the ‘Twitter Files.’ If you have not been following the #twitterfiles, here is the top 10 frightening revelations so far released in majority by Journalist Matt Taibbi.

- 1. Elon Musk Claimed Almost All Conspiracies Surrounding Twitters Censorship and Government Relationships, Were True.** The anti-propaganda pop conspiracy culture that was championed by Alex Jones reached its prime in 2014 and maybe dwindling, but refuses to die when government and corporate based conspiracies keep coming true. Here is Elon Musk verifying that “almost every conspiracy theory” about Twitter was indeed true.
- 2. The FBI Paid Twitter So the Social Media Giant Could Process All of Their Requests.** The government agencies [paid Twitter 3.4 million dollars](#) to cover the costs surrounding their requests. That money of course was provided by the proud taxpayers of America.
- 3. So Many Ex-FBI Employees Work at Twitter They Created a Secret Slack Channel to Onboard Additional Former Feds.** The FBI essentially became moderators for Twitter having frequently scheduled meetings and provided names of prominently conservative voices who violated Twitters term and conditions. [Experts argue](#) that the FBI violated Americans 1st amendment Constitutional rights in doing so. The social media giant’s employees created secret blacklists and censored unfavored tweets. Twitter from the get go had an [alarming number of former FBI agents](#) working for them. So its no surprise that they secretly worked to onboard other former feds to the organization. This is after Twitter misinformed the public in 2018 that the social media platform was not shadow banning conservative voices while creating [secret blacklists](#).
- 4. Twitter Leadership Requested to Sanitize Twitter Accounts Aggregating “True but Inconvenient” Data About the COVID-19 Vaccines, Even Information Directly from the CDC.** During the great pandemic it seemed like many top health professionals and even a creator of the MRNA technology found their accounts [deleted from twitter](#). Many warned against wearing masks, shutdowns and the dangers of a rushed vaccine using [a poorly tested MRNA](#) nano-tech solution.
- 5. Twitter Quietly Aided the Pentagon’s Covert Online PsyOp Campaign.** During the Church Committee we learned about Operation Mockingbird and how the CIA infiltrated media outlets to write

propaganda pieces for the government. Only a few years ago American Journalist [Abby Martin blew the lid off](#) of the CIA's jaw dropping social media propaganda campaign using virtual influencers to social engineer Americans. Now, Investigative Journalist, [Lee Fang](#) has released a deep dive into the Twitter Files and the blind eye it turned to the Pentagon's covert online psy-op campaign using virtual influencers to sway foreign opinion using social media.

6. Twitter Execs Were Pressured to Locate Information About Russian Misinformation Campaigns But Couldn't Provide Any Evidence to Such Assertions. As the attacks on 9/11 were used by the United States Government to Prey on Americans fear, enticing them to give up their 4th amendment right under the Patriot Act, the far-left Russian collusion narrative was used to pressure twitter to clamp down on misinformation from foreign governments. Even when twitter repeatedly denied any foreign influence the federal government pressed the issue.

7. Twitter Interfered in the 2020 Election by ...
