CCPO Note: During the 2 January 2023 Monday Night Football game, a horrified audience – live and TV – watched Buffalo Bills safety collapse on the field soon after getting up from a routine tackle. Medics performed CPR for nine full minutes before Mr. Hamlin was whisked away into a waiting ambulance. The world waited before the news eventually came that, while in critical condition, Mr. Hamlin was alive and expected to recover. This article reports several oddities associated with the ensuing narrative that Mr. Hamlin was alive and recovering, even attending subsequent games. People have been questioning the narrative, and in an apparent attempt to dispel any contrary rumors, the Bills quarterback stated that Mr. Hamlin had appeared in the locker room. However, a related article, “The Incredible Twists In The Ongoing Damar Hamlin Saga Is A Prooftext For Why Conspiracy Theory Exists, To Explain Things That Make No Sense” (nowtheendbegins.com/damar-hamlin-body-double-now-number-one-conspiracy-theory-on-social-media-illuminati-triangle/) raises questions too, and embeds a video clip showing Mr. Hamlin, his mother, and his 7-year-old brother arriving / attending the game. If you watch the video clip, ask yourself if the behavior of the Hamlin family is consistent with the miraculous recovery of Mr. Hamlin.

Based on what occurred on the field and the evidence in this article, almost certainly “fully vaccinated,” it is more likely that Mr. Hamlin did in fact die of the medical emergency he experienced on January 2, 2023, just like more than 1,000 elite athletes around the world have. This, and the ongoing coverup of thousands of deaths and disabilities due to the COVID 19 experimental gene-altering injections, demonstrates the power wielded by those who run the world can and will go to maintain the deception that the injections are “safe and effective.” Clearly, the God-haters of this world will soon embrace the greatest delusion of all time: “And then the lawless one will be revealed, whom the Lord will consume with the breath of His mouth and destroy with the brightness of His coming. The coming of the lawless one is according to the working of Satan, with all power, signs, and lying wonders, and with all unrighteous deception among those who perish, because they did not receive the love of the truth, that they might be saved. And for this reason God will send them **strong delusion**, that they should believe the lie, that they all may be condemned who did not believe the truth but had pleasure in unrighteousness” (2 Thessalonians 2:8-12).

In our age of technology and unimaginable wealth and power in the hands of wicked people, we realize with increasing clarity that the “reality” streaming from our mainstream media sources is more deception and delusion than truth. It is impossible to be certain about anything other than what God reveals to us in His Word. However, we can know Jesus, the One Who told us, “I am the Way, the Truth, and the Life” (John 14:6). Do **you** know Jesus? If you are unsure, please see [Know God](#). Those of us who do know Jesus comfort one another with the blessed hope of His soon appearing (Titus 2:13) and the knowledge that our all-knowing God will one day judge all liars (Revelation 21:8).

BUFFALO, NEW YORK — The foregoing photo is the clearest one we’ve seen of Mr. Damar Hamlin since the infamous *Monday Night Football* game on January 2, 2023. He is of course the Buffalo Bills free safety who [collapsed on the field due to cardiac arrest](#) during said game. The photo was part of an Instagram story posted by Mr. Hamlin’s teammate, [linebacker Matthew Milano](#), on January 15. This blogger [learned from influencer Whitney Rife in 2021](#) that IG stories disappear after 24 hours. Thus said photo no longer exists anywhere on Mr. Milano’s IG page.

The instant critical thinker questions related to the photo are:

- 1) why choose a temporary IG photo instead of a permanent one?
- 2) why not a video in today's world of everything being filmed instead of a photo?
- 3) why did no other teammates take photos or videos? We also have no idea if the photo is old or recent?

As it relates to the last bullet point, Mr. Hamlin is wearing a cold weather football cap in the “January 15, 2023” photo. These are specifically designed to keep the head, ears and face warm, while fitting snugly under the helmet. Mr. Hamlin wearing this indicates that he just finished playing in a cold-weather game. It makes no sense for a man recovering from cardiac arrest to show up to the team's locker room wearing this.

The COVID Blog® has followed this story closely because, as stated several times, “it will take an NFL or NBA player collapsing and dying on the field/court for the American masses to take notice of what's happening.” That has now played itself out

in real life. Monopolized social and legacy/mainstream media have [dictated all social and political narratives](#) since the turn of the millennium. Big Pharma is the primary mainstream media puppet master. It was vital for the powers-that-be (“TPTB”) to coverup the Tiffany Dover story at the beginning of the “vaccine rollout.” It is/was equally imperative for them to take control of the Damar Hamlin situation.

Tiffany Dover recap. TPTB rely on mass gullibility and stupidity to execute these ridiculous coverups that are always worse than the actual crimes. But 80% of Americans have received at least one “COVID shot.” They are forced to have faith in these propaganda stories to control their growing angst as the truth about the lethal injections is more freely flowing in 2023.

The foregoing social conditions make the lies easier to tell since the vast majority of the population wants and needs to hear said lies for their own psychological and otherwise well-being. This entire vaccine genocide would have been nipped in the bud before it got started if TPTB failed to quickly take control of what would have been a complete disaster at the very beginning of this agenda.

The most notorious “vaccination” of The Great Reset – Tiffany Dover, Dec. 17, 2020

The experimental Pfizer mRNA injections were first made available in the U.S. on [December 11, 2020](#). TPTB thought it would be cute to televise a bunch of nurses at CHI Memorial Hospital in Chattanooga, Tennessee receiving the injections on December 17, 2020. The infamous Tiffany Dover case was born that day, after she [collapsed just minutes after receiving the injection on live television](#).

Ms. Dover reappeared on camera a few minutes later, and said she always passes out...that it's normal for her to pass out. That's hard for critical thinkers to believe, considering she was an ER nurse and sees blood, vomit and other nastiness all the time. Ms. Dover [has not been seen or heard from since that time](#), other than a [not-so-convincing doppelganger named Amber Lynn Honea Dietz](#). TPTB used Ms. Dietz as a lookalike a few days after Ms. Dover's permanent disappearance.

TPTB were forced to cover this up. Someone dying right after receiving the beloved “vaccines” on live television days after the U.S. Food and Drug Administration (FDA) granted “emergency use authorization” for the shots, would have completely screwed up the most important phase of their [sinister depopulation agenda](#). They even ...
