The word increasingly strikes fear into the hearts of many as they watch young and healthy people abruptly drop dead, just as Damon Hamlin did before a national audience. Unlike most, he had medical help immediately after he collapsed.

The quote below comes from a January 2, 2023, Rasmussen Reports story. According to their poll: *rly half of Americans think COVID-19 vaccines may be to blame for many unexplained deaths, and more than a quarter say someone they know could be among the victims.*<sup>[i]</sup>

Late on January 29, 2023, eminent MIT Professor and respected expert on drug safety analytics, Dr. Retsef Levi, placed a video on his Twitter account (@Retsef). In it, he calls for the immediate suspension of all mRNA injections. Here are his words introducing the video: *The evidence is mounting and indisputable that mRNA vaccines cause serious harm including death, especially among young people. We have to stop giving them immediately!* Here is a quote taken from Dr. Levi's video: *I believe that the cumulative evidence is conclusive and indeed confirms our concern that mRNA vaccines indeed cause sudden cardiac arrest.* (In April 2022, he co-wrote a [study](#) on the incidence of emergency heart attacks for those under forty in Israel.)

Every day, I see the faces of children, teenagers, and young adults who have unexpectedly and suddenly dropped dead because of heart attacks, strokes, or other heart related ailments. Yet so few are paying attention. The level of denial and deception over what is happening is mind boggling. *The worldwide phenomenon of sudden deaths has reached a point where we cannot and must not ignore it. For me, the words of Proverbs 24:10-12 compel me to state my case and warn people of the grave dangers.* I begin with a quote from over a century ago.

RUDOLF STEINER, 1917

Rudolf Steiner, an Austrian philosopher and founder of a Satanic spiritual movement, wrote the following around 1917: *In the future, we will eliminate the soul with medicine. Under the pretext of a 'healthy point of view,' there will be a vaccine by which the human body will be treated as soon as possible at birth, so that the human being cannot develop the thought of the existence of soul and spirit. Materialistic doctors will be entrusted with the task of removing the soul of humanity. As today, people are vaccinated against this or that disease, so in the future, children will be vaccinated with a substance that can be produced precisely in such a way that people, thanks to this vaccination, will be immune to being subjected to the 'madness' of spiritual life.*<sup>[ii]</sup>

He penned these words 105 years ago! Take a few moments to ponder that. Also, consider the fact that the FDA recently approved giving the COVID injection to babies as young as six months. After including the Steiner quote in his book, J.B. Hixson wrote...
