Note from Pastor Kevin Lea: For 4,000 years, Satan has tried to destroy the Jewish people by infiltrating the Jewish nation with traitors from within, and/or by using other nation’s armies attempting to exterminate the descendants of Jacob on the battlefield. Today the nation of Israel is experiencing an existential threat on both fronts. The demonic/globalists forces have successfully taken over the judicial branch of Israel and have been legislating from the bench in ways that will if unchecked result in the Jewish nation losing its identity as God’s chosen people. “Immediately after the election results, I said that I intend to be the prime minister of all the citizens of Israel,” Netanyahu [began](#). “I meant it then, and I mean it even today. We have one country and we must do everything to protect it from outside threats and from an irreparable rupture.”

“We cannot allow any dispute, no matter how acute, to endanger the common future,” added Netanyahu, “we must reject ...
