

WHO's plans to become global health dictator move forward while we're distracted with "lab leaks" and "lockdown files"

By Rhoda Wilson On March 7, 2023, <https://expose-news.com/2023/03/07/whos-plans-to-become-global-health-dictator/>

CCPO Note: As we have remarked many times, COVID-19 provided the opportunity for the globalists to deploy an untested, experimental "vaccine" leading to the initial deployment of a digital vaccine passport system in several countries. Then came an apparent lull in this pressure, but current events indicate that this lull is nearly over, including the soon-adoption of proposed amendments to the International Health Regulations (IHR), which are being crafted behind closed doors. These agreements would cede national sovereignty and individual rights to a globalist entity, the World Health Organization (WHO).

Satan and his minion globalists are racing at breakneck speed to implement the systems and technologies that will enable the worldwide tracking and control of every person on the planet under the guise of "public health." The resultant system will require only a "flip of the switch," as Calvary Chapel Kaneohoe Pastor and prophecy teacher JD Farag says, to become the universal, bio-digital control and monitoring system that the future antichrist will hijack for his own purposes by causing "all, the small and the great, and the rich and the poor, and the free men and the slaves, to be given a mark on their right hand or on their forehead, and he provides that no one will be able to buy or to sell, except the one who has the mark, either the name of the beast or the number of his name" (Revelation 13:16, 17).

That we are witnessing the rollout of this technology, along with many other "signs of the times," reveal that we are fast approaching a future seven-year period in human history often referred to as the Tribulation Period. Most are oblivious to the significance of these events, blindly following the herd into global tyranny. But Christians know that Jesus will appear to take us to be with Him before this time. Will you be one? If you are unsure, please see "Normal" isn't coming back, Jesus is" (calvarypo.org/normal-isnt-coming-back-jesus-is-are-you-ready/) or contact us (calvarypo.org/contact/). In the meantime, Jesus commands His followers: "Take heed, watch and pray; for you do not know when the time [of His return] is" (Mark 13:33).

As World Health Organisation ("WHO") dictators gathered to strategise on how to remove nations' sovereignty by hijacking "public health," US Senators pushed back with an effort to reinforce congressional power to authorise treaties and a UK Member of Parliament requested an urgent debate on the proposed "treaty."

Proposed amendments to the International Health Regulations ("IHR") would give WHO new far-reaching powers to counter "misinformation and disinformation," introduce global vaccine passports, increase WHO's surveillance capabilities and enable WHO's Director General to declare an international public health emergency at any time – which monkeypox and now potentially bird flu are examples.

This is all happening at a time when, conveniently, corporate media is awash with revelations of the "lab leak" origins of SARS-CoV-2 and 'The Lockdown Files'. Is it coincidence? Or are they distracting us so there's less resistance? Or are they hoping the world's population will beg for WHO to take over because our governments have failed us? Who are they? ...

Proposed Amendments to the 2005 International Health Regulations (IHR)	Proposed WHO CA+ aka "Pandemic Treaty"
Working Group for amendments to the International Health Regulations (WGIHR)	Intergovernmental Negotiating Body (INB)
Top 10 Reasons to Oppose the IHR Amendments:	Top 10 Reasons to Oppose the Pandemic Treaty:
<ol style="list-style-type: none">1. Change from advisory to mandatory2. Potential rather than active emergencies3. Disregard for dignity, human rights & freedoms4. Allocation plan for "health products"5. Mandatory medical treatments6. Global health certificates7. Loss of sovereignty8. Censorship9. Potentially enormous, unspecified costs10. Obligations of duty to cooperate	<ol style="list-style-type: none">1. The WHO wants complete control2. Common but differentiated responsibilities3. WHO global pandemic supply chain networks4. Speed up regulatory approval of drugs5. Support for gain-of-function research6. Pathogen access & benefits sharing system7. Attempts to justify restrictions of human rights8. Censorship9. Potentially enormous, unspecified costs10. Additional bureaucracy
Adoption of amendments only require a simple majority. NO signature by country leaders and NO Senate or Parliament votes are needed.	Adoption of WHO CA+ requires a 2/3 vote by the World Health Assembly and can enter into force upon signature by nation's leader.
