The future is here, and if you enjoy being dominated by control freaks you are going to love it. “Digital identification” is one of the primary areas the globalists are focusing on right now, and as you will see below, the radical changes that are now being proposed are extremely scary. But most Americans have no idea that any of this is happening. Instead, many of them are obsessing over the relatively meaningless dramas that our corporate news outlets are constantly pushing. Meanwhile, the globalists are achieving their goals at lightning speed, and there is hardly any resistance at all. The following are 8 signs that the futuristic control freak agenda of the globalists is rapidly moving forward...

#1 Starting in September, the EU will “mandate” that all member states offer a [“digital identity wallet”](#) to all of their citizens and businesses... *The European Union will mandate digital identity under eIDAS 2.0, which will go into effect in September 2023 and ensure all Member States offer a digital identity wallet (DIW) to citizens and businesses. According to the European Commission, “At least 80% of citizens should be able to use a digital ID solution to access key public services by 2030.”*

#2 A system of “digital fingerprints” for Americans has suddenly become Barack Obama’s [biggest issue](#)... *Former President Barack Obama suggested in a new interview the development of “digital fingerprints” to combat misinformation and distinguish between true and misleading news for consumers. Obama sat down with his former White House senior adviser David Axelrod for a conversation on the latter’s podcast, “The Axe Files,” on CNN Audio. During the interview, Axelrod noted he’s seen “misinformation, disinformation, [and] deepfakes” targeting Obama.*

#3 A UN policy brief that you can find [right here](#) is proposing a global system of digital identification [that is linked to our bank accounts](#)... *Digital IDs linked with bank or mobile money accounts can improve the delivery of social protection coverage and serve to better reach eligible beneficiaries. Digital technologies may help to reduce leakage, errors and costs in the design of social protection programmes.*

#4 The World Health Organization has adopted “the European Union (EU) system of digital COVID-19 certification” and plans to transform it into a [“global system”](#)... *In June 2023, WHO will take up the European Union (EU) system of digital COVID-19 certification to establish a global system that will help facilitate global mobility and protect citizens across the world from on-going and future health threats, including pandemics. This is the first building block of the WHO Global Digital Health Certification Network (GDHCN) that will develop a wide range of digital products to deliver better health for all. “Building on the EU’s highly successful digital certification network, WHO aims to offer all WHO Member States access to an open-source digital health tool, which is based on the principles of equity, innovation, transparency and data protection and privacy,” said Dr Tedros Adhanom Ghebreyesus, WHO Director-General. “New digital health products in development aim to help people everywhere receive quality health services quickly and more effectively”.*

#5 Federal agencies in the United States have been purchasing massive amounts of information about U.S. citizens from data brokers, and we are being warned that such information could potentially be used for [“blackmail, stalking, harassment and public shaming”](#)... *Federal agencies are secretly accumulating mountains of data that could be used for “blackmail, stalking, harassment and public shaming” of American citizens. That allegation doesn’t come from a pink-haired civil-liberties fanatic — it’s in a new report for the nation’s chief spymaster, Avril Haines.*

#6 It [has been revealed](#) that the Pentagon ...
