

The Origin of Comets, Asteroids, & Trans Neptunian Objects (TNOs)

Solving the Puzzle Above Us

- How do Stardust and DART missions disprove evolutionary theories about comets, asteroids, and trans-Neptunian objects (TNOs)?
- Why do we find water/ice, organic material, and earth-like minerals on these objects?
- Why could these objects have *not* been part of God's original creation?

Learn about the only biblically-consistent and scientifically feasible explanation, as presented to the Institute for Creation Research (ICR) in December 2022
